Subject: [EXTERNAL] WisDOT's 2024 Safety Performance Measure Targets
Date: Thursday, August 31, 2023 7:59:07 AM
Attachments: [WisDOT.2024 Safety Targets.pdf](#)

Hello MPOs

Please review the attachment as your notification of the established Wisconsin Department of Transportation (WisDOT) 2024 targets for the Safety Performance Measures (effective date: August 31, 2023).

Metropolitan Planning Organizations (MPOs) are to establish Safety targets for their metropolitan planning area no later than 180 days after the state establishes targets.

23 CFR 490.209(c)

(4) For each performance measure, the MPOs shall establish a target by either:

- (i) Agreeing to plan and program projects so that they contribute toward the accomplishment of the State DOT safety target for that performance measure; or
- (ii) Committing to a quantifiable target for that performance measure for their metropolitan planning area.

[eCFR :: 23 CFR 490.209 -- Establishment of performance targets.](#)

Approved **MPO 2024 Safety targets and “how the program of projects contributes to achieving the MPO's performance targets ..., linking investment priorities to those targets”¹** needs to be included in a policy board approved TIP or TIP Amendment and submitted to WisDOT Planning Section by **February 28, 2024** (180 days after August 31, 2023).

Targets were established by calculating a 2% decrease from the current 5-year baseline averages.

Reminder: The 2024 Safety targets are the **numeric targets** (i.e., number of fatalities – 2024 target is **588.8** (5-year rolling average)). These numeric Safety targets need to be included in the TIPs, if the MPO is “agreeing to plan and program projects so that they contribute toward the accomplishment of the State DOT safety target for that performance measure”.

Please contact me if you have any questions.

Thank you

Jim Kuehn
